FINANCIAL AND COMMERCIAL

TUESDAY, Oct. 5-6 P. M. The gold market showed something of its old life, and the premium fluctuated quite briskly. From the opening price of 128% there was a sharp advance to 130%, with a reaction late in the day and subsequent to the government sale to 129%. The early stvance was based upon the Spanish-Caban news. At the government sale the merchants were large buyers. The speculative feeling for a decline which followed the restoration of quiet to the gold market is evinced in the active borrowing demand for cash gold. Lenders allowed from seven to five per cent on the currency collaterals for their gold in the greater number of transactions, but in many istances got the currency without interest or dat The block in the exports strengthens the feeling in favor of higher gold, especially as the demand to cover "short" sales of exchange is also quite active. The course of the premium to-day is shown in the

The record of the government sale is given in another column. The bids were for a total of \$5,730,000. The Westphalm took out \$223,000 in specie. The Treasury Department is now transferring gold from the Sub-Treasuty in New Orleans to the Sub-Treasury in this city by the sale here of endorsed gold certificates, payable in com at the Sub-Treasury in New Orieans, which process enables the Treasury to make the transfer without risk or expense.

The drut of the money market was to still greater ease, and lenders, rather than let their balances go unemployed over night, were satisfied with as lov as five per cent on call, at which rate money was to be had in good sums before three o'clock. The great bulk of business, however, was at six to seven per cent. The prevailing abundance of funds is due to several causes. The great shrinkage in values at the Stock Exchange has primarily lessened the demand. It requires a great deal less money to carry stocks now than it did a month ago. Again, the demand from the West is comparatively light The shipments of currency have commenced, but the amounts sent are small. The decline in gold has checked the movement of the crops. farmers have in their minds the old prices, and loath to sell; hence the retention of grain which, with a higher premium on gold, would nd its way to the scaboard, while currency would find its way to the West. It is curious to speculate what will be the eventual result of this state of affairs. The more cynical financiers suggest that Mr. Boutwell, who is so full of expedients for encouraging the business of the country, should turn about and buy gold, with a view to letting out

the crops. Perhaps it was an apprehension that he would be compelled to change his policy that gave the gold market its firmer tone to-day. The lower rate for money is beginning to be felt in the market for commercial paper, where a better laquity was reported to-day. Rates also abow a diamnation, and prime notes were quoted at from nine to twelve per cent discount. A large importing house in Pine street is reported to have failed to-day. Poreign exchange was again steady and active under a large demand for bills. It should be remem-bered that in the late gold "corner" there was a

very free sale of bills on "short" account, which, like the overselling of the stock market, is reacting against the sellers. Many of these sales have been covered within the last few days, while the reduced e of exports curtails the supply of bills. The late gold speculation has ramified in its effects every of business in Wall street. The following was the range of rates:-Sterling, sixty days, commercial, 10814 a 109; good to prime bankers', 109 a 100%; short sight, 109% a 109%; Paris, sixty days, 5.23% a 5.16%; short sight, 5.16% a 5.15; Antwerp, 5.23% a 5.16%; Switzerland, 5.23% a 5.16%; Hamburg, 35% a 35%; Amsterdam, 39% a 40%; Brankfort, 40 a 40%; Bremen, 78 a 78%; Prussian thalers, 70% a 71. Governments underwent a strong reaction from

yesterday's prices, although the market was in the

The total transactions for the year were 388,527,374,294, and the transactions since its organization—a period of sixteen years—\$250,027,558,962. The average transactions per day have been \$125,088,789, being \$27,910,917 more than any pre-vious year, and the total exchanges for the year

\$8,089,882,072 greater than ever before.

While the stock market was in general dull there was a firm undertone and prices were not easily nammered by the shorts, who are said to be very umerous. Indeed, the signs are that the market is now being manipulated to increase the short interest to the greatest possible extent, preparatory to a buil movement by the cliques. The outside feeling for a rise is not a strong one, the tendency of those who lost in the recent "break" being to sell, rather than buy, the operation requiring less capital and therefore having its present inducements. There Shore to-day. In the first place it was incorrectly stated last night that Mr. Ely WAS had been elected Treasurer. That office is still vacant. It is charged that the report came from within the directors' meeting and was circulated as a "feeler" for the street. The directors were again in session to-day and elected Alanson Robinson a director in place of Mr. Lockwood, who resigned the treasurership and his directorship together. The meeting has not arrived at any conclusion as yet on the subject of the indebtedness of the late incumbent, but the amount is now reported at more than \$750,000. Friends of the suspended firm assert that they will resume within a week, owing to the assistance given them by former and new patrons. As to the office of treasurer, it is said the meeting discussed a proposition to place it with one of the trust companies. The election of Mr. Robinson is a compliment to the Vanderbilt interest, and indicates that the board of directors paye become more con-

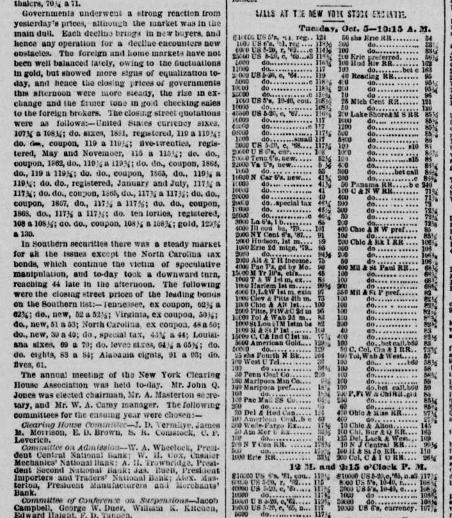

ervative in their views, and prefer an alliance with he Commodore to the uncertainty of a consolidation with the Erie party. The Northwest stocks were active on the report that Daniel Drew was moving in them, while the express shares were strong, in sympathy with a sharp advance in Wells-Fargo, which company is reported to have succeeded in obtaining a contract over the Pacific Railway. Something official should be given to the public by the company, otherwise this oft-repeated story may come to be regarded as another effort to assist the unloading of the stock. The market was strongest just before the second board, after which it declined and became irregular. The following were the closing prices at the last session of the Stock Exchange;—Canton, 51½ a 54; Cumberland, 27 a 30; Western Union, 36 a 36%; Quicksilver, 13% a 15; Mariposa, 9% a 10; do. preferred, f8 a 18%; Pacific Mail, 65 a 53%; Boston Water Power, 13½ a 15; Adams Express, 53 a 54; Wells-Fargo Express, 20% bid; American Express, 31 a 33; United States Express, 54; New York Central, 178% a 179; Hudson River, 163% a 163%; Harlem, 134 a 13434; Eric, 33% a 33%; do. preferred, 55 a 58; Reading, 96 a 96%; Michigan Central, 120; Lake Shore, 85% a 86; Rinois Central, 134; Cleveland and Pittsburg, 92% a 92%; Chicago and Northwestern, 72% a 72%; do. pre-ferred, 85 a 85%; Cleveland, Columbus and Cincinnati, 73% a 74; Rock Island, 105% a 105%; Milwan-kee and St. Paul, 68% a 60; do. preferred, 81% a 82; Toledo and Wabash, 59 a 60; Fort Wayne, 85)4 a 85%; Aiton and Terre Haute, 33; do, preferred, 55 a 57; Ohio and Mississippi, 27% a 27%; Deiaware and Lackawanna, 103 a 109; New Jersey Central, 69% a 99%; Chicago and Alton, 140 bid; do. preferred, 145; Morris and Essgx, 87% a 83; Hannibal and St. Joseph, 109% bid; do. preferred, 106 a 109%; Columbus, Chicago and Indiana Central.

THE WOOL INDUSTRY OF THE COUNTRY.

Address of Erustus B. Bigelow at the National Exhibition of the American Institute.

Mr. Erastus B. Eigelow, President of the National Association of Wool Manufacturers, delivered an elaborate and highly interesting address last even-ing, at the National Exhibition nbw in progress at the Empire Rink, on Third avenue and Sixty-third street, under the auspices of the American Institute. The subject of the address was, "The Wool Industry of the United States." The association of which Mr. Bigelow is President is only five years old, yet it exhibits, in the variety and quality of the articles of American wool manufactures now to be seen at Riuk a remarkable degree in the growth and vigor of this branch of home industry. The annual value of our wool manufactures and of those manufactures in which wool is a component part is not less, according to was very fair in theory, said Mr. Bigelow, but wholly unsatisfactory in practice, as it ignores the great law of self-increst and the duty of a nation to pro-tect its own industry against the injurious effects of foreign competition, a duty as sacred as to defend fis soil and its homes against the aggressions of

Another Curious Law Case.—Mrs. Parker was tried at Portland, Me., last week for shooting at a Mrs. Baker, with intent to kill. The injury rendered a verdict of "Not guilty on account of insanity." On the decision of the jury being given the prosecuting attorney moved there be a warrant granted sending respondent to the State Asylum for the Insane in accordance with the statute. Counsel for respondent objected to the motion on the ground that the jury had found her insane at the time the murderons assault was committed, but not that she was insane now. The Judge was in doubt whether the law upon him was peremptory or discretionary, and after the point had been ably discussed pro and con, after deliberation, Judge Goddard discharged the woman, saying ne did not think it necersary to send her to the Insane Hospitalito ascellation whether she was Insane now or not, and as he believed he had discretionary power in the matter he ordered her discharge, because he had seen nothing to satisfy him that she was over lineane at any time.

THE COAL MINE DISASTER IN ILLINOIS.

Breaking of a Haisting Repe-One

Breaking of a Hoisting Repc—One Man Killed and Three Others Terribly Mangled.

[From the Chicago Tribune, Oct. 4.]

A very sad accident occurred at the coal mines at Garoner, Ill., on Friday evening last. At about eight o'clock on that evening, as four persons were descending the coal shaft, the wire heisting rope broke, and the men were precipitated, together with the bar upon which they were standing, to the bottom of the shaft, a distance of 150 feet. At the news of the accident the most tremendous excitement prevailed among the miners employed in the usiah-borhood and the citizens of the town. As soon as the facts developed themseives immediate steps were taken to afford the unhappy men relief. With a few slight repairs, the second car was brought into requisition, and lowered to the bottom of the shaft. Here the sufferers were found in a badly mangled state, but none of them killed outright. Their names were discovered to be Ben. Harwood, Robert Mckinzel, Henry Walts and Edward Sutton. Harwood was so badly injured that he has since died.

Edward Sutton was an ongmeer in the employ of the commany, and was probably the least injured. His mind is unimpaired, and he describes his terrible feelings while maxing the award dascen to what he supposed to be instant death. He wait probably recover.

Robert McKinzle received such severe internal injuries that no hopes are entertained of his recovery. Henry Walts is also badly mangled, but it is thought he may survive. Walts is an Englishman by birth, and has very wealthy parents living in the old country. When he arrived of age his father gave him £10,000 sterling to start in the world with. He soon squandered this sum on the turt in England and came to this country to mend his wasted fortunes. He had been at work in the coal mine but a short time when this accident occured.

There is no satisfactory theory yet given as to the cause of the accident. The steel wire rope which supports the cage on which the men stoou is said to be capable of sistanding sixteen tons wei

MARRIAGES AND DEATHS.

Married.

Married.

ctardner—Wilson,—In New York city, on Tuesday, October 3, at Calvary church, by the Rev. Reeve Hobble, Charles T. Cardner, of Washington, D. C., and Miss annie Wilson, of New York city.
